How to User T3-01

Plugging/Unplugging Cables

Plug in the black color to L-side, red color to R-side.

Note

- Plug in the cable until you hear the clicking sound. Make sure that plug cannot be disconnected easily.
- Insert "L" to your left ear, "R" to your right ear. Adjust the earpad, so that your entire ear can be covered.

Technical Data

Mass	approx. 321g(cables not included)
Type	Closed dynamic
Plug	Φ3.5 mm Gold-plated stereo mini plug
Output sound pressure level	100 dB SPL/mW
Cables	1.8 m (Type-Y, Detachable)
Frequency characteristics	5Hz ~ 40kHz
Maximum input capacity	1000 mW
Impedance	70Ω
Accessory	Headphone cables Φ6.3 Standard plug adaptor Carrying case Instruction Manual Warranty

Precautions for use

- Please read the instruction manual of the connecting devices before use.
- When plugging or unplugging, be sure to hold the plug part.
- Do not place in direct sunlight, high temperatures, dusty or humid places, or in areas with the risk of water spillage.
- When in dry areas, you may feel some kind of sensation or pain in your ear.
- This is caused by static charges stored in your body or connected devices, and it is not a sign of malfunction of the headphones.
- A strong shock to the product or cables may cause damage.
- High temperatures, humidity or dry environments may cause natural wood to be deformed or discolored.
- Use a soft dry cloth, etc for cleaning.
- Please clean the plug regularly to avoid deterioration of sound quality or noise occurrence.
- Please store the product in a well-ventilated area, avoiding high temperature and humidity, if you are not going to use the product for a long period of time.
- Ear pads and head cushions are expendables. They may wear out by being stored or by using them.
- Please replace them as needed.

Safety Precautions

This product is designed with full considerations for safety, but accidents may occur when wrongly used.

Cautions

- Please do not use the product when driving a car or a motorcycle nor riding a bicycle. It may cause traffic accidents.
- Do not use the product in the areas where you need to hear the surrounding sounds such as railroad crossing, station platforms or in the areas with busy traffic. You may get into an accident.

Warnings

- Please use the product with appropriate volume levels, and do not excessively stimulate your ears. Listening with excessive volume for a long period of time can cause negative effects to your hearings.
- Excessive volume can cause sound leakage. Please be careful not to bother people around you. Keep the volume level low enough to be able to respond when somebody calls for your attention even in noisy environments.
- If you experience any discomfort on your skin, please stop using the product.
